

gic_init_dist

```
graph LR; A[gic_init_dist] --> B[smp_processor_id]
```

A diagram showing a dependency. On the left, a gray rectangular box contains the text 'gic_init_dist'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'smp_processor_id'. Both boxes have a black border.

smp_processor_id
